

Homework Guidelines

Foundation Learning Phase

- The purpose of the homework will be to reinforce skills that have been presented in class during the week. New skills will not be introduced as part of a homework task. Oral tasks discussing aspects of the week's work will also be set.
- Each class will send reading books home so that a parent can read/share a book with their child.
- Year 1 and 2 will send homework every Friday evening to be returned by Wednesday morning.

Years 3, 4, 5, and 6

- Homework is set weekly (unless the length of the homework task requires more time to complete)
- The homework will support cross curricular, literacy and numeracy work of the class.
- The majority of homework is set on Google Classroom but a paper copy will be available for those who need it.
- The homework is due back by Friday the following week (unless the task is an extended one)

NOTE: From time to time, formal homework will not be set e.g. at a Christmas concert, family holidays, school holidays, last week at the end of term.

Reading Eggs, Darllen.Co, Mathletics and HWB account

- Reception – Year 6 learners have log in details for Darllen.co
- Year 1 – Year 6 learners have login details for a Mathletics account.
- Year 2 – Year 6 learners have login details for a Reading Eggs account.
- All learners have a HWB account. There is a wealth of educational games and apps available for free on it to reinforce your child's skills.
- The Tric a Clic a Cyw app can also reinforce early literacy skills for Nursery - Year 2 learners.
