

Taith Ddysgu

Dear parent,

For information, the school has bought a license that allows us to use SeeSaw to measure your child's progress from the Nursery up to Class. 6. The name of this program is **Taith Dysgu**. This is in addition to the pictures of learning experiences that Foundation Phase parents already receive through SeeSaw.

How does it work?

- Each child will receive an individual target from his/her teacher - a target which is derived from the child's work. This target will be shared with you through the SeeSaw.
- Priority is given to setting Literacy and Numeracy targets at the start.
- You would receive a photo/video/comments via SeeSaw showing your child's progress in achieving their target(s).
- The school will record three pieces of evidence of your child's progress before he/she gets a new target.
- Targets can take a period of a week up to a month to complete (this is dependent on the nature of the target)

Advantages for parents.

Gain a better understanding of:

- the type of work your child does in class.
- how your child is making progress
- how you could support your child at home.

I hope that you will find this resource useful and valuable.

There will be an opportunity to discuss your child's progress in detail or any initial difficulties using the SeeSaw during the Parents' Meeting which is on 11/11/24 and 12/11/24.

Yours Sincerely,
Buddug Roberts
